INVITATION

Dear Sir/Madam

New bone health innovation for Women

We have a pleasure to invite you to the Newtest Bone Exercise Monitor UK Launch Event, which will take place in London on Tuesday 23rd May 2006.

The UK Launch Event is organised to introduce a new innovation, The Newtest Bone Exercise Monitor™ for measuring the effectiveness of bone loading exercise and hence improving bone health in women (to prevent osteoporosis). We extend invitations to health professionals, physiotherapist and beauty & health journalists to attend.

With this easy-to-use Newtest Bone Exercise Monitor™, the user can keep track of the of daily bone loading exercise to improve the bone health. This unique innovation is developed and patented by a Finnish fitness technology company Newtest Ltd (www.newtest.com).

Please come and visit the demonstration and collect your complimentary Bone Exercise Monitor™.

Please find your invitation card attached. For further information please visit the launch website at www.womencanjump.com. Should you have any enquiries please contact Ms Rita Laajala at rita.laajala@finpro.fi or by telephone 020 8600 7273.

We look forward to seeing you in London!
